Sonar Graph:

Raw Sonar

The Wrist Sonar and Sonar and you are on the SmartCast Wrist sonar allows you to graph the bottom for structure, detail and fish locations below the RSS. This screen image jump is due to an automatic change in depth. New returns graphed at a different scale will not match up with the historic data to an automatic change in depth. New returns graphed at a different scale will not match up with the historic data.

On-Screen Images

The SmartCast system is a line-of-sight wireless system. Product design may result in erratic depth readings. New returns graphed at a different scale will not match up with the historic data.

Start-up in Fishing Mode

After pushing the POWER-MENU button to turn on the display, press and hold POWER-MENU until the Fish Intensity menu appears. Select either or to match your fish display needs. The SmartCast system is a line-of-sight wireless system. Product design may result in erratic depth readings. New returns graphed at a different scale will not match up with the historic data.

Stability
